Who should use TE?

- *Probably*
  - *Users who need Graphite*
  - *Users who currently use Toolbox or Word*
  - *Users who are just getting started*
  - *Users who want powerful integrated tools (even if some of it is futureware)*
  - *Users who want to be on the leading edge and influence the direction of TE.*

Who should use TE?

- *If Local IT Staff are Willing to Support it*
  - *MTTs who are (or wish to become) familiar with MS Office (esp. Word)*
  - *Users who are in the middle of their projects*

Who should use TE?

- *Probably Not*
  - *Users who are close to publishing and are satisfied with their current software.*
  - *Users who cannot get access to adequate hardware.*
  - *Users whose script is not supported by Unicode.*
